Women and girls around the world will raise our voices and take action to show our resistance to environmental and social degradation; highlight the climate impacts our communities are facing; demand drastic change away from our unjust economic and development systems; and demonstrate the many effective, just and safe climate solutions, strategies and political calls that are being implemented by women and girls around the world on a daily basis.-----

This is a decentralized action campaign that everyone can participate in locally by submitting a photo and statement individually or as a group. Many allies are also choosing to organize an educational event, local march, direct action or other creative project. Source : Women Act For Justice Climate
